Senior Cybersecurity Consultant focused on Infrastructure Security, Cloud Security and DevSecOps

Senior Cybersecurity Consultant with 12+ years of experience delivering infrastructure security, vulnerability management, cloud security, and DevSecOps initiatives across enterprise-scale environments.

Proven track record implementing and strengthening security controls aligned with ISO 27001, NIST CSF, CIS Controls, and SOX compliance requirements within complex corporate infrastructures.

Strong background in infrastructure security, security hardening, cloud security fundamentals, vulnerability remediation, and security automation using modern DevSecOps and infrastructure-as-code practices.

CORE COMPETENCIES

Infrastructure & Security Engineering

- End-to-end vulnerability management lifecycle (discovery, prioritization, remediation, validation)
- Secure infrastructure design and hardening (Windows/Linux, CIS Benchmarks)
- Identity and Access Management (Active Directory, RBAC, least privilege)
- Security monitoring and incident response support (SIEM, alert triage)
- Enterprise security controls implementation and validation

Cloud Security & Architecture

- Cloud security engineering across AWS and Microsoft Azure
- Cloud posture and configuration security management
- Infrastructure-as-Code security governance (Terraform, LocalStack)
- Secure workload design and access control enforcement
- Security alignment with CIS and NIST frameworks

DevSecOps & Security Automation

- CI/CD security integration and pipeline hardening
- SAST, DAST, dependency and container scanning automation
- Security validation in deployment workflows
- Container security and runtime risk reduction
- Security tooling integration in GitHub Actions pipelines

Governance, Risk & Compliance (GRC)

- Security control design, implementation, and assessment (ISO 27001, NIST, CIS)
- SOX compliance and audit readiness support
- Technical risk analysis and remediation planning
- Security standards development and enforcement
- Audit evidence collection and traceability

PROFESSIONAL EXPERIENCE

KPMG Argentina

Senior Cybersecurity Consultant

Buenos Aires, Argentina

April 2023 - Present

- Implemented security controls aligned with NIST, ISO 27001, CIS Controls, and SOX requirements.
- Led vulnerability remediation initiatives across hybrid environments (Windows, Linux, Cloud).
- Supported security monitoring and incident response processes including alert triage and escalation.
- Performed infrastructure hardening aligned with CIS Benchmarks.
- Supported audit readiness activities including evidence collection and control validation.

Deloitte Argentina

Senior Cybersecurity Consultant

Buenos Aires, Argentina

December 2017 - March 2023

- Delivered cybersecurity assessments across enterprise infrastructure and application environments.
- Designed and implemented security standards aligned with ISO 27001, NIST, and CIS Controls.
- Supported SIEM monitoring operations, including security event analysis and incident response.
- Executed vulnerability management and infrastructure hardening programs.
- Collaborated with cross-functional teams to improve security posture and reduce risk exposure.

Grupo Supervielle S.A.

IT Risk Analyst

Buenos Aires, Argentina

May 2012 - December 2017

- Managed identity and access administration across Active Directory, Exchange, Oracle, and SQL Server environments.
- Supported access control governance and segregation of duties enforcement.
- Participated in audit remediation and compliance improvement initiatives.
- Implemented encryption tools and digital certificate management solutions.
- Contributed to automation initiatives for internal security and compliance processes.

TECH STACK

Cloud Platforms

AWS, Microsoft Azure

Infrastructure & IaC

Terraform, LocalStack

DevSecOps & CI/CD

GitHub Actions, Docker

Security Tooling

Trivy, OWASP ZAP, Nessus, Checkov

Cloud Security

Microsoft Defender for Cloud, Prowler

Automation

Python, Bash, PowerShell

CERTIFICATIONS

- [Microsoft Certified: Identity and Access Administrator Associate \(SC-300\)](#)
- [Microsoft Certified: Security, Compliance, and Identity Fundamentals \(SC-900\)](#)
- [Microsoft Certified: Azure Fundamentals \(AZ-900\)](#)
- [DevSecOps Fundamentals – Cybrary](#)

PERSONAL PROJECTS AND SECURITY LABS

DevSecOps Security Pipeline

- Built CI/CD security pipelines using GitHub Actions.
- Integrated SAST, DAST, dependency, and container scanning.
- Automated security validation using Trivy and OWASP ZAP.

Cloud Security Labs

- Built AWS and LocalStack-based security labs using Terraform.
- Implemented IAM, encryption, and secure S3 configurations.
- Validated infrastructure security using Checkov.

LANGUAGES

- Spanish: Native
- English: Professional working proficiency (B1–B2)

EDUCATION

Higher Technical Degree in Infrastructure Support
ISTEA - Argentine Institute of Business Technology

2014 - 2016
